

# Maria Giuliana O. M. Villela

Brazilian, born on 03.July.1998  
Vereador Frederico Veras Street, 372  
Florianópolis-SC, 88040-200

+55 48 99677-3885 • mariagiuliana.villela@labmetro.ufsc.br

## MAIN POINTS

- Basic notions of Lean Systems;
- Experience in teamwork;
- Interest in Electrical Engineering and Production Engineering, focusing on the quantitative area.

## EDUCATION

**Production Engineering/ Electrical Engineering**  
Universidade Federal de Santa Catarina

1/2017 – Currently  
Florianópolis, Brazil

## PROFESSIONAL EXPERIENCE

**Projects and Technical visit organization**  
PET-MA

03/2018 – Currently  
Florianópolis, Brazil

Internship at the Programa de Educação Tutorial (PET) – Metrologia e Automação, group composed of twelve students from several Engineering courses of the Universidade Federal de Santa Catarina (UFSC). This group aims the technical, personal and management development of its members, who work on engineering projects in partnership with the various laboratories of the university's Technological Center, with focus on multidisciplinary and team work. Furthermore, the students organize several development initiatives, such as courses, like Excel, and technical visits.

Developed Skills:

- Time managing
- Work in multidisciplinary groups

## LANGUAGES

Portuguese  
English  
French

## COMPUTER SKILLS

C, C++, Python, SQL, Matlab, AutoCAD  
MS Office, Rockwell Arena

## EVENTS ORGANIZED

06/2018 **Assistant Organizer**  
VIII Congresso de Sistemas Lean  
Annual congress organized by Universidade Federal de Santa Catarina, in partnership with Universidade Federal do Rio Grande do Sul, with focus on Lean Systems

10/2017 **Assistant Organizer**  
Tecnologia da Indústria 4.0 – Controle de Produção  
Presentation organized by Laboratório de Produtividade e Melhoria Contínua

02/2018 Practical Approach to Solve Operations and Transport Logistics Problems – UFSC (36h)

### Undergraduate Research

📅 01/2018 – 03/2018

Laboratório de Produtividade e Melhoria Contínua

📍 Florianópolis, Brazil

Laboratory part of the Department of Production Engineering at Universidade Federal de Santa Catarina, focusing on research and extension in the area of lean systems.

#### Developed Skills:

- Interpersonal relationships improvement
- Basic notions of Lean Systems
- Team work

### Extension Program

📅 08/2017 – 12/2017

Laboratório de Produtividade e Melhoria Contínua

📍 Florianópolis, Brazil

Laboratory part of the Department of Production Engineering at Universidade Federal de Santa Catarina, focusing on research and extension in the area of lean systems.

#### Developed Skills:

- Interpersonal relationships improvement
- Basic notions of Lean Systems
- Team work
